

From the Founder's Desk

Dear Supporter,

I want to take this opportunity to thank you for everything you've done for our children!

8 years ago, CEHRO INDIA was started with a dream to ensure happier childhoods for India's children. 8 years later, I look back on our journey and feel overwhelmed with gratitude for the faith that our partners and supporters placed in us. For the kindness and generosity of our donors. For the encouragement we received at every step from kind souls such as yourself.

2019-20 has been a good year for CEHRO INDIA because we were able to give so many children the chance to discover their true potential. It is stories like these that unite my faith in coming together for one cause. Thank you so much for being our support and I hope that we will continue the good work in the years to come.

With faith & hope,

Surjeet Singh
Founder
CEHRO INDIA – Centre for Education and Health Research Organization

Message from Board of Trustees

Dear Supporters,

You have helped us in making 2019-20 a wonderful year.

Thanks to all - our donors, supporters, volunteers and partners –we have been able to create a big difference in the lives of 315 underprivileged children for forever.

You have helped children to get a chance for better education. You ensured that they get access to schools with proper facilities. You have made this possible by simply lending us your hand of support.

We continue to count on you for your support and making greater change.

On Behalf of Board of Trustees

Vision

To contribute towards the betterment of the society by facilitating empowerment of the neglected section of the society through quality education, effective healthcare, livelihood opportunities and skill development.

Mission

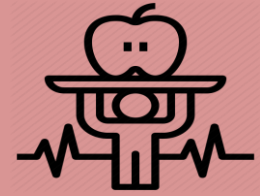

By 2030 every migrant poverty affected child in Munirka and nearby slums will be given an inclusive, supportive and progressive environment so that s/he can grow to the full potential.

Field of Our Work

Education

Bridging gap between what a kid knows & what he/she should know as per their age

Health & Nutrition

Evaluation of health, nutritional intake & hygiene habits of child

Employment through skill development

Supporting youth to develop skills required to get a job opportunity

Our Approach

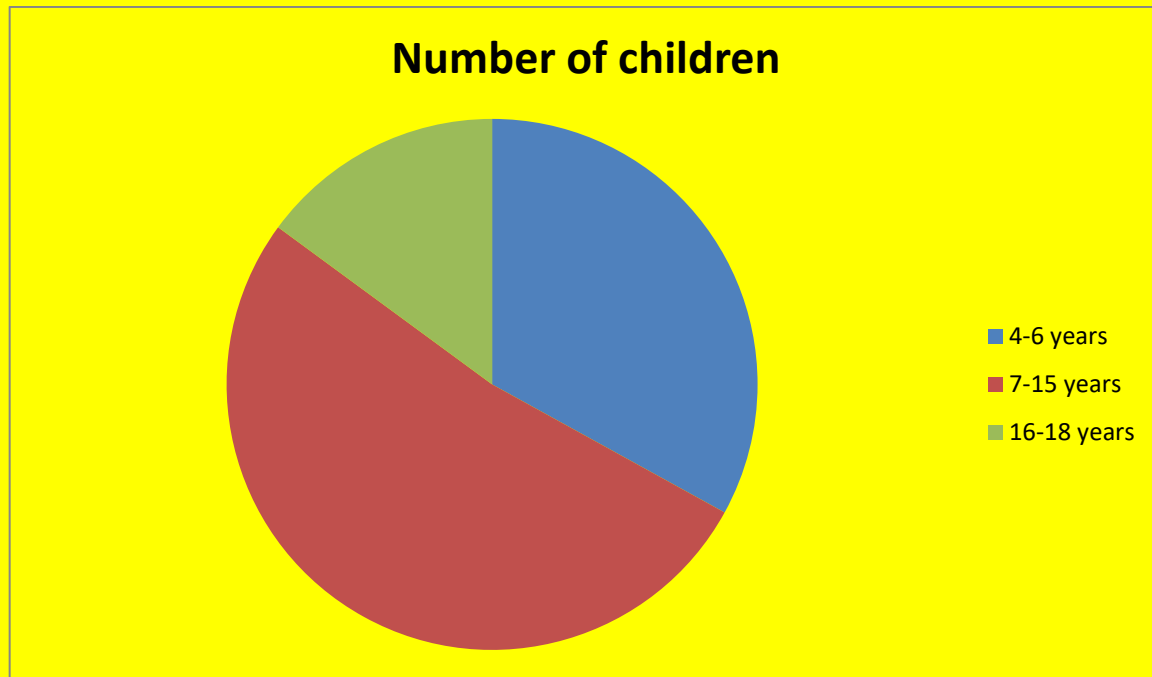

We primarily serve the migrant families who are critically poor with annual income of less than 1 lac. Children from these families are mostly first generation learners and are deprived of basic needs. We act as a catalyst focusing on the child centred solutions primarily derived from the community. More than disrupting the system, we focus on aiding the development by availing them the setup inside the community and facilitating growth of the change agents.

Our centre runs programs which are specially tailored according to the existing needs. In addition to that, we deeply value the creation of sense of responsibility among children. In order to convert our children into change agents so that they work towards community transformation, we provide them ample access and exposure, leadership opportunities and push them to take their own initiatives.

Our Reach

In the year 2019-20, CEHRO INDIA has reached 315 students across Munirka community

Number of children in the age group 4-6 years are 104

Number of children in the age group 7-15 years are 164

Number of children in the age group 16-18 years are 47

Impact

105 new students enrolled in centre

35 new students enrolled in school

1580 new quilling products were made

80 children free from malnutrition

400 slum children were supported

22 workshops were conducted for children

8000 children given nutritious food

Our Programmes

Under Education

Udaan (Early Childhood Programme): This programme is intended to enrol children with age group 3-6 years from the community and engage them in several activities so as to prepare them to school.

Kati Patang (Alternate Path for children out of school): We aim to bring back dropouts after Grade 5 to formal education system.

Padho Padhao Programme: Before there was a difference between the student's age and class but now we have managed to bridge that gap. Now children are able to understand the curriculum of their present classes.

Under Health

Health & Hygiene: In this programme, we evaluate health, nutritional intake and hygiene habits of children. With the help and cooperation of our food partner Resposenet, Individual Partners and via The Shared Birthday Project we managed to look after health nutrition programmes for the children of CEHRO INDIA.

Under Employment

Saksham (Employment through Skill Development): We aim to support youth to develop skills required to get a job opportunity by short term courses. Underprivileged children made number of quilling products through training provided by our team and sell these products.

Workshop, Celebrations & Special Programmes

Advocating Rights of Children through Art: An initiative under Khilta Bachpan Campaign where mementos were gifted to their guests was made by CEHRO INDIA children.

Museum Visit @Kiran Nadar, Museum of Art: CEHRO INDIA children visited museum after a quilling session and was mesmerized with the paintings of famous artist and modernist Arpita Singh.

Clay Session @Kiran Nadar, Museum of Art: Children sculpted lots of images like dinosaur, face mask, ice cream etc.

Origami Session by Shiv Nadar Foundation: Children made colourful umbrellas during origami session.

Kite Making Session: Shiv Nadar Foundation conducted a kite making session for little children of CEHRO INDIA.

Tao Dance Master Spiritual Session: Master Eli Ho a dancer & choreographer perform diverse dance disciplines and taught spiritual dance to children of CEHRO INDIA.

Personal Hygiene Workshop: Health and Hygiene where Dr. Nidhi Gupta gives awareness speech on practice of Personal Hygiene.

Stall Exhibition "Quilling Art By CEHRO INDIA" @ Defsys Solution Pvt. Ltd: Quilling exhibition was setup to support the cause "Help the needy children to light a lamp on Diwali and Education".

Stall Exhibition "Quilling Art By CEHRO INDIA" @HCL Technologies Limited: Supporting the great cause "Help the needy children to light a lamp on Diwali" and giving us the opportunity to participate in the Diwali Mela-Ngo Bazaar Event.

Stall Exhibition "Quilling Art By CEHRO INDIA" @ ESRI INDIA: Wonderful opportunity to put up a stall for the greater cause "Help needy children to light a lamp on Diwali and their Education".

Health Camp @CEHRO INDIA: We coordinated with Dr. Nidhi Gupta of GTB Hospital and Dr. Manpreet Kaur of Maulana Azad Medical College for basic health check up of CEHRO INDIA children.

Menstrual Hygiene Workshop: CEHRO organized a Workshop on Menstrual Hygiene for the women and girls of Munirka community.

Plate Design Workshop @Kiran Nadar, Museum of Art: Children practiced to design a plate with name on it.

Art and craft workshop @Kiran Nadar, Museum of Art: Teaching disadvantaged children of slums variety of handmade paper items which help them evolve their imagination capabilities and creates interest.

Folder Design Workshop @Kiran Nadar, Museum of Art: The goal is to transform a flat square sheet of paper into a finished sculpture through folding and sculpting techniques.

Educational Trip to Qutub Minar: The purpose was to educate the less privileged children on a heritage site of Delhi and was given a brief history on the monument.

Designing Corrugated Animals Workshop: A totally different and interesting art form which children learned in one of their session @Kiran Nadar, Museum of Art.

Winter Cloth Distribution @CEHRO INDIA: Donated winter clothes to 250 children of CEHRO INDIA with the help of Responsenet, our food partner.

CORONAVIRUS Awareness Programme: Talking to Children about COVID-19 (Coronavirus) to spread awareness among them and in which they were informed about the virus and the precautionary measures needed to escape from getting infected.

Tourism Day: Motivational speaker Rahul Goswami open up on the topic "Tourism and Jobs: a better future for all".

World Environment Day 2019

Warm Clothes Distribution to slum children: Mr. Rajat of Rotary Club and his team has supported with warm clothes in the shape of winter kit to the slum children of CEHRO INDIA.

Fifth International Day of Yoga

Bag Distribution Drive: School bags were distributed to children of CEHRO INDIA by Akshar Foundation.

Holi Celebration @CEHRO INDIA

Children's Day Celebration

Chritmas Celebration @ CEHRO INDIA

Achievements

Big Congratulations to our Super Kids

In this CBSE 10th board result, we all must have seen the students passing with the flying colors. But have we ever imagined a girl living in two small rooms with a size of 8x9 ft., where there is the kitchen in one room along with her 7 sisters, she managed to get 93.6% in 10th class. How would she manage to study with one small LED bulb giving light only in one direction and giving strain in your eyes, with no source of stable income and no resources even to eat sometimes? Her home has a ceiling of rail road and there is water in the floor to prevent from heat which in return brings moisture. We are talking about Mezbeen, an underprivileged girl, who has beaten all the odds to secure 93.6% in the CBSE 10th board result.

Mezbeen lives with her mother, father, and seven sisters in Munirka village, Delhi. Her father, Mr. Irfan Khan, sells fish at roadside opposite Jawaharlal Nehru University, main gate. Her mother, Mrs. Momin Begum, is a housewife. Her two elder sisters who completed 12th class study this year help their father to sell the fishes. She studies in the Sarvodaya CoEd Senior Secondary School, Munirka Village, Delhi. She has five younger sisters who also study in the same school. Her mother, on Mezbeen, securing 93.6% marks feels that she could have achieved more and secured the first rank in the school, instead of third. As her mother knows her daughter's hardwork and how the school teachers appreciate her on her studies. On asking Mezbeen about her role model, she tells "My role model is my elder sister who completed her 12th class. Even though in her family no one is educated she keeps on motivating me to study". Mezbeen wants to study science in 11th class and become a teacher in biology.

Mezbeen joined CEHRO INDIA at the start of her 9th class on recommendation from her fellow school students. She says before joining CEHRO INDIA, she was less talkative, hesitant to meet new people, and under-confident. After joining CEHRO INDIA, she is confident to talk to new people. She says the best thing she likes about organization is that Surjeet Bhaiya, founder of CEHRO INDIA, is very helpful and encourages and motivates them to do good which helped her to do good and become a confident girl. She wants to do social work and teach the underprivileged kids in future like Surjeet Bhaiya. Further, she wants to become the part of Padho Padhao programme of CEHRO INDIA under which the students become teachers for the junior kids.

Anish joined CEHRO INDIA two months before his 9th class final exams. In the previous exams, he secured 40% but he said after joining the organization his academic performance has drastically improved in all the subjects. In just two months, after joining CEHRO INDIA, he secured 70 % in the 9 th class final exams. He went on to secure 80.2% in the 10 th class which is a huge improvement for the student who performed poorly in almost all the subjects in the previous class and got compartment in Mathematics. He says that he got to know about the organization from his school friends as he was looking for recommendations because previous tuition classes were not giving the results.

Anish wants to be an accountant in future so he would be taking commerce in 11th standard. He wants to support his family and improve the financial condition of the family. His role model is his elder brother who supports the family and helps other relatives too. He likes to play cricket and Kho Kho. He along with his team secured the first position in his school.

Rajkiya Entrance Result

Two students have cleared the entrance exam of Rajkiya Pratibha Vikas Vidyalaya, 2019 for 6th class

One of the student name, Wasi who scored fifth position in the exam is an underprivileged student who lives with four sisters and his parents. His father works in a repair shop and his mother is a housewife. From May 2018 he started coming in CEHRO INDIA for his regular studies but when came to know about Rajkiya Pratibha Vikas Vidyalaya's entrance exam he started his hard work.

And it says "With hard work and effort, you can achieve anything." So says his result also.

Another girl Tanisha who's coming to the centre from four years was also confident about her entrance exam. Being an underprivileged and living with her younger brother and parents she made it through the entrance exam. Her father and mother both works as domestic-help.

Her parents made sure to not let the financial conditions come her way. As it says "With hard work and dedication, anything is possible." She scored 37th position in the entrance exam.

A new and bigger centre at Munirka community has been set in this believe that every learner is unique and deserves an education designed to meet their needs and abilities.

Thank you to our supporters, contributors and well-wishers.

Why Donors Choose CEHRO INDIA

The organization does everything in its capacity to further the cause of education, which is not limited to classroom learning, but other skill training in a way that also makes childhood fulfilling for the under-resourced children.

Ms. Deboleena Dutta
International Trade Lawyer

The true essence of selflessness reflects in the activities/causes that CEHRO picks up, acting as an enabler for creating a better society, and a better tomorrow.

Awanish Kumar Shahi
Assistant Section Officer,
Ministry of Education

CEHRO INDIA has worked incredibly hard to uplift the weaker sections of society, especially women and slum-area children. This NGO has constantly provided basic amenities like health, education, food, clothing etc to more than thousands of kids.

Akanksha Verma- PhD Scholar, JNU

This NGO is committed to the cause of deprived and destitute through providing education as well as health related facilities. However, it does not restrict itself merely to classroom instructions but make attempts to give taste of reality of life.

Sumit Kumar- PhD Scholar, NUEPA

Volunteer Speak

Working with CEHRO was a fantastic experience for me as I could help the socially underprivileged people at the ground level. CEHRO is one of the best NGOs in South Delhi which is working for the upliftment of the have-nots, their team is always working on their toes every day to provide access to education and healthcare to the children of nearby slums. One of the innovative practices adopted by CEHRO is the selling of quilting and handmade products which brings out the talent of the children as well as helped supporting them financially.

-Mayank Singh

I am very pleased to say that my experience of associating with CEHRO India has been excellent and I feel it is a privilege too. My appreciation for the excellent work CEHRO is carrying out in uplifting underprivileged children. By providing better future to migrant children and the community by providing them access to better education, health and work. CEHRO is investing in future of India, as children are the future. -Ishank Bhavaja

During these few months time, I learned about the hardships of life, what humanity means, and how CEHRO is dedicated to such a social cause. I sincerely wish that CEHRO being an NGO spread its wings to all parts of India and serve all those needy in our country.

-Rohit

My experience at CEHRO India as an intern is something that I am never going to forget. The organisation helped me in discovering what I truly love to do and played a crucial role in turning me into a sensible human being. Be it the conducive work environment provided by my amentors or the amazing kids whom I got the opportunity to teach, everything in CEHRO was too good to be expressed in words.
